

Knowledge Session: SAP S/4 HANA explained

What is the impact of SAP S/4 HANA on your SAP development?

The impact of SAP S/4 HANA

What is the impact of SAP S/4 HANA on your SAP development or SAP Product? With the introduction of SAP S/4 HANA, SAP is changing its strategy and new 'digital core'. This offers customers with SAP S/4 HANA new technologies and platforms. As a result, this has an impact and extends the scope of SAP partners, consultants and clients.

Tempioneer is organising several (on premise or in house) roadshows sessions for its customers. The knowledge sessions will focus on the impact of SAP S/4 HANA on the IT development landscape and will highlight the new requirements and solution opportunities for your customers, partners and products.
